

NANOTEX® ALL CONDITIONS

Give your fabric protection against the elements with Nanotex All Conditions:

Nanotex All Conditions uses repellency technology that works at the molecular level of your fabrics fibers using nano-scale “whiskers” to change the surface tension of fabrics **providing resistance against severe weather.**

PROPERTIES:	FIBER TYPES:	APPLICATIONS:
Protection against severe weather	Cotton	Apparel
Repels rain, sleet and snow	Rayon	Casual lifestyle
Provides long-lasting protection	Wool	Dress
Retains fabric softness	Silk	Outerwear
Breathable	Polyester	Sportswear
PFAS free	Nylon	
	Acrylic	
	Polypropylene	

TEST METHODS:	COMPATIBLE WITH:	CONTACT:
AATCC TM 22	 WRINKLE DEFENSE	services.technical@nano-tex.com
	 FRESH PROTECT	1.800.CRYPTON
	 UV BLOCK	nanotex.com

We pioneered nanotechnology enhanced textiles.

Nanotex is the original and trusted source that transforms your fabric to better withstand the effects of nature and enhance your life.
