

NANOTEX® WICK+BLOCK®

Give fabric the two-in-one function of eco-friendly moisture management and stain release with Nanotex Wick+Block:

Nanotex Wick+Block uses hydrophilic net architecture that works at the molecular level of your fabrics fibers to quickly disperse moisture resulting in **advanced moisture wicking allowing fabric to breathe naturally**. When activated with water and detergent, it can **dislodge tough, stubborn, ground-in stains**.

PROPERTIES:	FIBER TYPES:	APPLICATIONS:
Eco-conscious stain release	Nylon	Activewear
Rapidly wicks sweat across fabric to speed up drying	Polyester	Apparel
Durable to multiple home laundering cycles	Wool	Bedding
Retains fabric softness		Outerwear
Breathable		Uniforms
PFAS free		

TEST METHODS:	COMPATIBLE WITH:	CONTACT:
AATCC TM 130 AATCC TM 197	 COOLEST COMFORT  DRY INSIDE  RELEASE+COOLEST COMFORT  FRESH PROTECT	services.technical@nano-tex.com 1.800.CRYPTON nanotex.com

We pioneered nanotechnology enhanced textiles.

Nanotex is the original and trusted source that transforms your fabric to better withstand the effects of nature and enhance your life.
