

## **US: Nano-Tex unveils fluorocarbon-free finish**

**Author:** just-style.com | 29 June 2011

Nano-Tex has launched a new nanotechnology-based textile treatment for the apparel market that offers a fluorocarbon-free option for water repellency.

Aquapel replaces the traditional fluorocarbon polymer with a hydrocarbon polymer, providing an ecologically friendly treatment that repels liquid and is also breathable, durable and fast drying.
